

Regen' Paradise - Lyrics

As I walk through the valley of the shadow of waste,
I take a look at the world and realise we're outpaced.
'Cause we've been burning and polluting so long that
Even Mama Nature thinks that our mind is gone.

But I've never passed a forest that didn't deserve it,
Being treated with respect, that's the planet's verdict.
You better watch what you buy, and how you dispose,
Or the future we face is one of dread

I really aim to flip, but I gotta speak,
As they choke, I see the smoke from the factory leak, buddy
I'm the kinda Guy the green youth wanna be like,
Planting trees by the day, turning waste to reuse

(Chorus 1)

been spending most our lives,
Living in a wasteful economy.
Now we're turning all the tides,
Heading to a regen' paradise.
been spending most our lives,
Living in a wasteful economy.
Now we're turning all the tides,
Heading to a regen' paradise.

Look at the challenges we're now embracing,
Can't live this wasteful life, I was raised to be green.
So I gotta be down with the eco team,
Too much pollution rising, got me chasing clean dreams.

I'm an educated player with the planet on my line,
Got my goals in my hand, and a sustainable design.
I'm a locked-in business, circular player, man.
And my partners are in, so let's really get benign. Yo
waste's not just trash, it's a goldmine, okay?
In this green economy, leading the fray.

23 ventures strong, will they change the game?
Old habits die hard, but we won't stay the same.

(Chorus 2)

Tell me why are we, too blind to see
That the earth we hurt is the one we need?

(Chorus 1)

been spending most our lives,
Living in a wasteful economy.
Now we're turning all the tides,
Heading to a regen' paradise.
been spending most our lives,
Living in a wasteful economy.
Now we're turning all the tides,
Heading to a regen' paradise.

Profit with a purpose, purpose and the power,
Investing in the green, every single hour.
Businesses are moving, but some are still just looking,
It's going on in the market, but some don't see what's cooking.

They say we've got to shift, but who is there to lead the spree
If it is not öbu'team, so who will it then be?
I guess we will, and will you too
Junk the old, to get where we wanna be

(Chorus 1)

been spending most our lives,
Living in a wasteful economy.
Now we're turning all the tides,
Heading to a regen' paradise.
been spending most our lives,
Living in a wasteful economy.
Now we're turning all the tides,
Heading to a regen paradise.

(Chorus 2)

Tell me why are we, too blind to see
That the Earth we hurt is the one we need?
Tell me why are we, too blind to see
That the Earth we hurt is the one we need?
